

Scan-MAID™

For Windows®

Enjoy the added profits and control of scanning without spending a fortune.

Scan-MAID™ is a dynamic software tool created specifically for single location to mid size chain convenience stores, grocery stores, liquor stores and gas stations. A complete solution for anyone who wishes to implement a cost effective scanning and price book solution without investing in other software features such as daily bookkeeping and fuel management.

With **Scan-MAID** for Windows you can:

- Eliminate cashier ring errors
- Initiate and manage buy down and promotional pricing
- Reduce cashier training time by up to 75%
- Manage product prices by item, group, or department all from the back office or home PC
- Implement scanning and you can receive all these benefits and more for less than half a penny* per customer
- Print bar code labels

Disponible también en Español

Scan-MAID™ is universal Windows PC based programming tool for today's most popular cash registers designed to help you

- Maintain a back office price book
- Improve store margins 1-3%
- Decrease shrinkage up to 1%
- Increase store sales 8-12% by eliminating cashier ring errors and incorrect pricing
