

Scan-Solve™

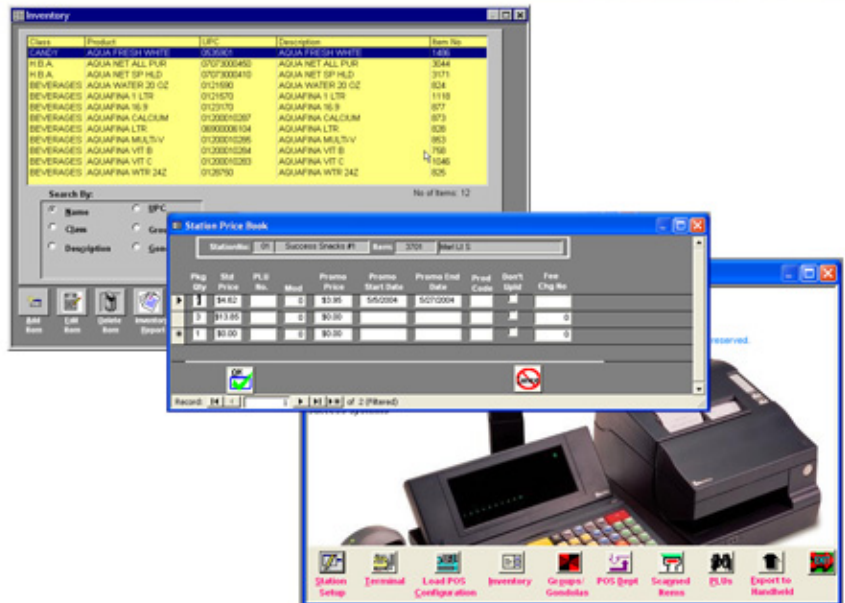

For Windows®

Are you looking for a way to centralize your stores' price books?
Centralize your price book operations and implement store level scanning

Scan-Solve™ is a comprehensive, cost effective, solution created specifically for locations who want to install a price book solution or want to add a price book solution to their existing application. **Scan-Solve** allows small and mid size chain operators to centralized their stores' scanning and price book without replacing their current back office program.

With **Scan-Solve** for Windows you can:

- Implement zone pricing
- Eliminate cashier ring errors
- Manage product prices by item, group, or department from your back office PC
- Initiate and manage buy down and promotional pricing
- Reduce cashier training time by up to 50% or more
- Print bar code labels

Scan-Solve™ is a scanning and price book management tool that can sit on top of your current back office program. Scan-Solve is a tool designed to help you:

- Maintain a back office price book
- Improve store margins 1-3%
- Decrease shrinkage up to 1%
- Increase store sales 8-12% by eliminating cashier ring errors and incorrect pricing

Why **Scan-Solve**?

- Scan-Solve is a very affordable scanning solution for first time back office users and a very cost-effective application for those who have an existing back office program
- Our simple quick start package can have you up and scanning in one day
- Scan-Solve sits on top of your current back office program
- Fully upgradeable to other Success Systems products

Return on Investment Analysis per Store⁺

Areas of Improvement	Sample Store⁺⁺	Your Store
Improve store margins up to 1%	$\$30,000 \times 1\% =$	\$300.00
Increase sales revenue up to 8%	$\$30,000 \times 8\% =$	\$2,400.00
Reduce shrinkage up to 1%	$\$30,000 \times 1\% =$	\$300.00
Increased profit^{**} per month	Increased Profit = \$3,000.00	

Custom InstallTM

Success Systems will create your custom price book on-site. We guarantee you're scanning and benefiting from your selection before we leave your site. Our certified technicians handle all the details and install the software. We build your initial price book by scanning all the products in your store and assigning product descriptions - including UPC/PLU code, wholesaler partner suggested retail price, cost products, and order numbers.

Price Book Creation

Scan-Solve is a self installable solution designed to easily and quickly build the stores' price book. As easy as walking around the store scanning items, the Symbol Palm will display name, UPC and product description leaving price and department information to be entered. After all items are scanned, store operators can populate the price book on Scan-Solve by downloading the information to the back office PC.
