

retail™

**ePB Retail™** is a completely free, true web based application that lets convenience store retailers access and manage store(s)'s product pricing. Users have the flexibility and freedom to change or add up to 250 items per month to their register anytime, anywhere there is a PC with Internet access.

This service is designed for store operators who are looking for a **FREE** and easy to maintain scanning and price book tool. The application will allow users to manage store's prices coming from the store's food wholesaler.

### Top Features

- Manage store(s)'s price book on-site or remotely by item, group or department
- Receive electronic invoices from your wholesaler and automatically alert you to new items or changing costs
- Update global price changes by creating customized groups
- Print barcodes and shelf labels with item description, UPC, effective date and retail price
- Access your information and do your work from anywhere you can access the Internet
- Track price change history by item
- Compatible with most major POS terminals in the convenience store industry

### Key Benefits

- **Eliminate shortages** - Using ePB is the equivalent of cutting out a \$95<sup>00</sup>\*\* per day cash drawer shortage
- **Make more money** - Eliminate cashier ring errors, reduce cashier training time by up to 50% and minimize shrinkage to less than 1%
- **Margin Control** - Enter and maintain item, department or store margins
- **Totally FREE Application** - ePB Retail is a **free** web based price book solution
- **Remote access to the store's information** - review and control your store prices and invoices from any PC with Internet access
- **Easy to use** - manage the store prices easily without the worry of clerks making mistakes
- **Electronic tie-in** - receive electronic invoices from your food wholesaler
- **Web reporting** - flexible reporting gives you access to system reports from your web browser
