the most cost effective web based
Electronic Price Book Application

ePB™ Product Family

managing and controlling your store - anywhere, anytime

The ePB™ Product Line is the most cost conscious, secure, true web based product family that let users maintain store scanning prices and manage store operations through 4 levels of services: Lite, Premium, Books and Accounting . Users have the flexibility and freedom to do any task anytime, anywhere they have Internet access, and without the need of having a PC at the store(s).

Benefits

- Increase each store's profit by more than \$30,000 per year**
- Eliminate cashier ring errors
- Reduce cashier training time by up to 50% or more, minimize shrinkage to less than 1% and increase store revenue 5%+
- Improve store's performance – ePB is a great tool to help users spot sales trends, get better purchase power, determine best and worst selling items
- Low investment – ePB is a very affordable web based store automation solution
- Easy to use – manage the store prices easily without the worry of clerks making mistakes
- Wholesaler link up – receive electronic invoices, price updates and new items from the store's wholesalers

**Call for Profitability Analysis

Manage the store's prices and promotions

Managing the store scanning prices just got easier! ePB lets you add new items or edit existing ones from any PC with Internet access. Whether you centralize your account or price book operation or rely on your store's employees to do so, ePB is a great solution to control your store operations. You don't need to be at the location to change a price, start or stop a promotion, retrieve and post your sales, check your inventory. Moreover, there is no need to modify prices item by item, or keep notes on the registers to remind you about ending promotions.

Maintain scanning prices on-site or remotely by item, group, department, store, zone or vendor

Update global price changes by creating customized groups

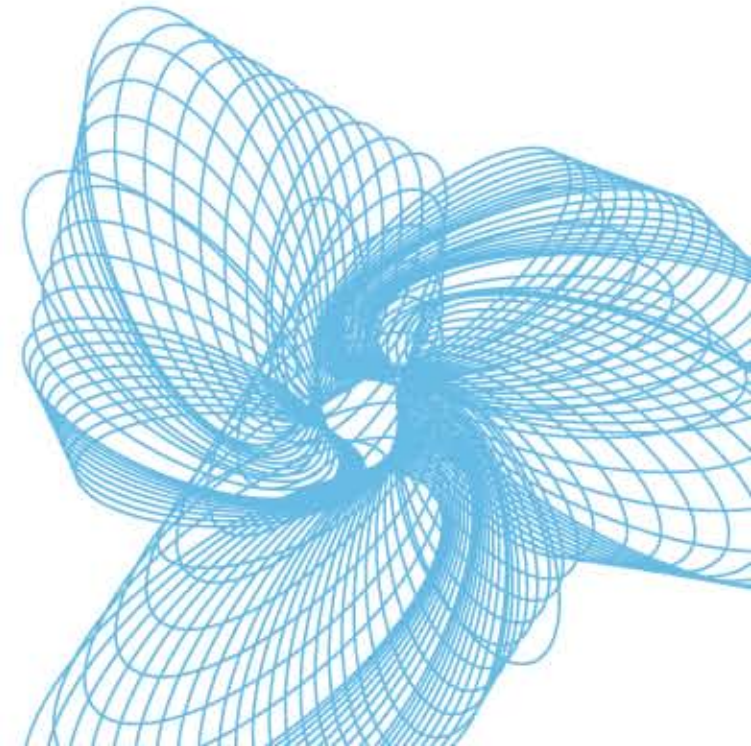

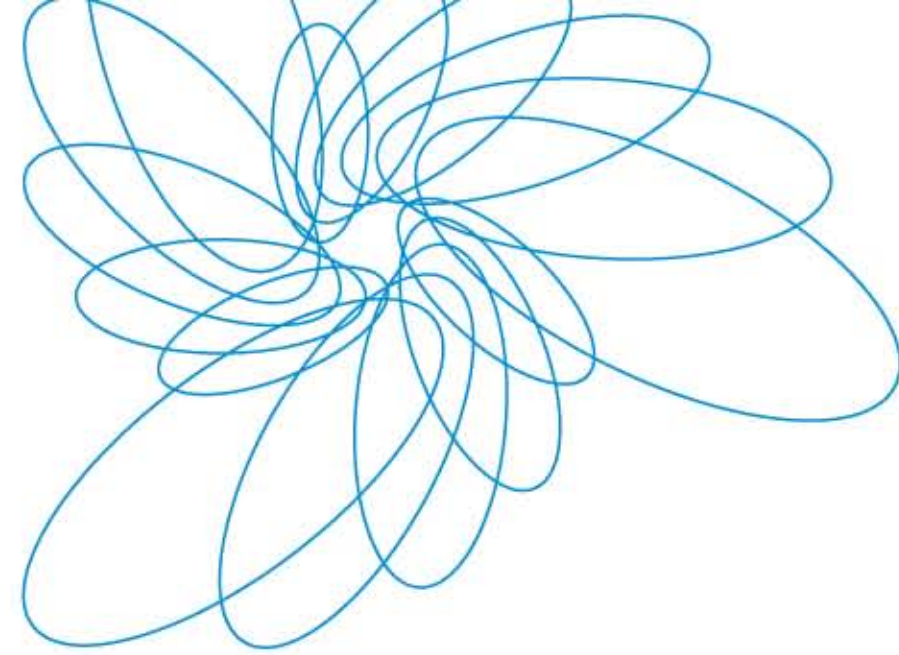

Multiple tier pricing levels

Initiate and manage buy downs and promotional pricing

Promotions may be automatically scheduled and discontinued by day of the week or time of the day

Receive electronic invoices from your wholesalers

Track price change history by item

Sales and Inventory Management

ePB is a great solution to review your store(s)' sales and keep track of your inventory. ePB reporting tools help you spot sales trends, review margins, stock and fuel, and determine best and worst selling items. You can easily control inventory of lottery tickets and key items as well as audit inventory items throughout the store(s).

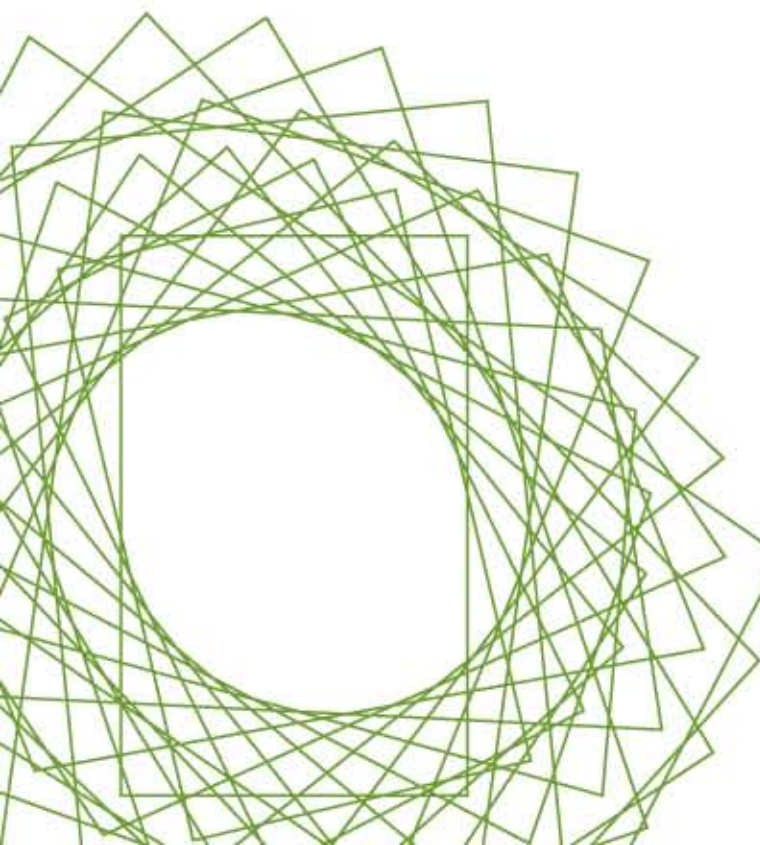

Control inventory at the item level per store

Monitor store sales by item, group, department

Print barcodes and shelf labels with item description, UPC, effective date and retail price

Receive deliveries by scanning in vendor deliveries and sending them to ePB for review

Receive electronic alerts of new items or changing costs from your wholesalers

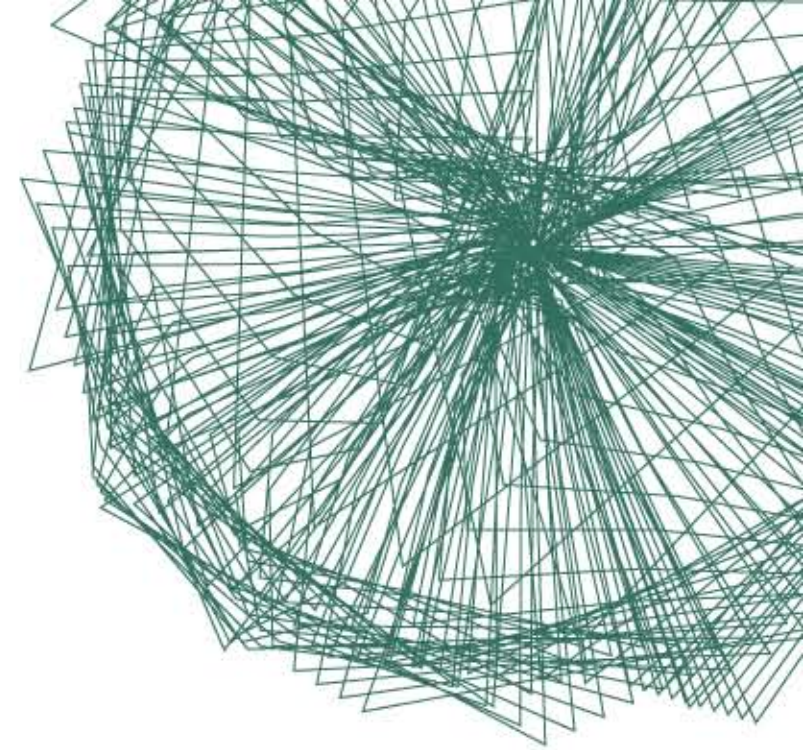

Daily Bookkeeping and Accounting

ePB Books and Accounting let users manage their store operations by keeping a tight control of inventory, shrink, invoices as well as facilitating daily activities such as cash reconciliations, key inventory audits and more.

Perform store's daily reconciliation per shift or day and audit POS transactions

Microsoft's Open architecture lets you tie into most accounting software

On-line reporting of store sales, fuel sales, shrink, daily reconciliation, EPA, accounting and much more.
