

premium

ePB Premium™ is the most cost conscience, secure, true web based application that lets users access and review store(s) sales and manage product pricing and promotions. Users have the flexibility and freedom to do any of those tasks anytime, anywhere without having a PC at the store(s).

This service is designed for store operators who are looking for a cost effective, easy to maintain scanning and store management application.

Top Features

- Manage store(s)'s price book on-site or remotely by item, group or department
- Promotion may be automatically scheduled and discontinued by day of the week or time of the day
- Set promotions by day of the week or hour of the day
- Initiate and manage buy downs and promotional pricing
- Receive electronic invoices from your wholesalers that will automatically alert you to new items or changing costs
- Global price changes by creating customized groups
- Print barcodes and shelf labels with item description, UPC, effective date and retail price
- Access your information and do your work from any where you can access the Internet

Key Benefits

- **Increase each store's profit by more than \$30,000 per year****
- **Better control of your margins and profitability** - Eliminate cashier ring errors, reduce cashier training time by up to 50% or more and minimize shrinkage to less than 1%
- **Low investment** – ePB is a very affordable web based store automation solution
- **Remote access of the store's operations** – review and control your store prices, sales and invoices from any PC with Internet access
- **Easy to use** – manage the store prices and promotions easily without the worry of clerks making mistakes
- **Electronic tie-in** – receive electronic invoices from the store's wholesalers
- **Web reporting** – automatically receive access to numerous sales and fuel reports any time you access the Internet
